

ΕΠΑΝΑΛΗΨΗ ΣΤΙΣ ΤΕΣΣΕΡΙΣ ΠΡΑΞΕΙΣ

1. Υπολόγισε το αποτέλεσμα:

$$\begin{aligned} 70+30 &= \dots\dots \\ 60+20 &= \dots\dots \\ 40+20 &= \dots\dots \\ 40+60 &= \dots\dots \\ 100+0 &= \dots\dots \\ 10+80 &= \dots\dots \\ 30+30 &= \dots\dots \\ 0+60 &= \dots\dots \\ 50+50 &= \dots\dots \\ 20+20 &= \dots\dots \\ 10+40 &= \dots\dots \\ 20+80 &= \dots\dots \\ 80-0 &= \dots\dots \\ 90-20 &= \dots\dots \\ 90-90 &= \dots\dots \\ 40-10 &= \dots\dots \\ 70-50 &= \dots\dots \\ 60-30 &= \dots\dots \end{aligned}$$

2. Υπολόγισε το αποτέλεσμα

$$\begin{aligned} 70-20 &= \dots\dots \\ 100-50 &= \dots\dots \\ 30-30 &= \dots\dots \\ 100-60 &= \dots\dots \\ 70-10 &= \dots\dots \\ 80-70 &= \dots\dots \\ 100-80 &= \dots\dots \\ 80-60 &= \dots\dots \\ 20-20 &= \dots\dots \\ 70-0 &= \dots\dots \\ 90-30 &= \dots\dots \\ 40-20 &= \dots\dots \\ 80 \div 2 &= \dots\dots \\ 50 \div 50 &= \dots\dots \\ 30 \div 10 &= \dots\dots \\ 40 \div 1 &= \dots\dots \\ 60 \div 20 &= \dots\dots \\ 90 \div 3 &= \dots\dots \\ 50 \div 5 &= \dots\dots \\ 100 \div 20 &= \dots\dots \\ 60 \div 6 &= \dots\dots \\ 2 \times 40 &= \dots\dots \\ 30 \times 3 &= \dots\dots \\ 6 \times 10 &= \dots\dots \\ 10 \times 10 &= \dots\dots \\ 2 \times 50 &= \dots\dots \\ 30 \times 3 &= \dots\dots \\ 50 \times 0 &= \dots\dots \\ 6 \times 10 &= \dots\dots \\ 100 \times 1 &= \dots\dots \\ 2 \times 40 &= \dots\dots \\ 1 \times 90 &= \dots\dots \\ 3 \times 20 &= \dots\dots \\ 4 \times 10 &= \dots\dots \\ 0 \times 40 &= \dots\dots \\ 6 \times 10 &= \dots\dots \end{aligned}$$

2. Βρες τον αριθμό που λείπει:

$$\begin{aligned} 90 + \dots\dots &= 100 & 100 - \dots\dots &= 60 \\ 40 + \dots\dots &= 80 & \dots\dots - 20 &= 50 \\ \dots\dots + 30 &= 90 & 90 - \dots\dots &= 40 \\ 20 + \dots\dots &= 70 & \dots\dots - 50 &= 50 \\ \dots\dots + 80 &= 80 & 80 - \dots\dots &= 50 \end{aligned}$$

3. Τώρα πρέπει να σκεφτείς και να βάλεις +, -, x, ÷ στα κουτάκια όπου ταιριάζει:

$$\begin{aligned} 90 \dots\dots 10 &= 9 & 2 \dots\dots 50 &= 100 \\ 80 \dots\dots 20 &= 100 & 1 \dots\dots 10 &= 10 \\ 50 \dots\dots 30 &= 80 & 30 \dots\dots 2 &= 60 \\ 90 \dots\dots 9 &= 10 & 40 \dots\dots 40 &= 1 \\ 70 \dots\dots 20 &= 50 & 50 \dots\dots 40 &= 90 \\ 60 \dots\dots 60 &= 0 & 70 \dots\dots 0 &= 0 \end{aligned}$$
